

Occupational Health Back Care Chairs – SD7, SD8

SD7 & SD8 Medium and High Back Models
Also shown with optional folding arms

The SPYNAMICS SD7 medium back and SD8 high back models carry the endorsement of Occupational Health Practitioners. There is a wide selection of seats to complement the choice of 2 backs to ensure a custom built therapeutic office chair. The features and benefits of both these models include:

Albion
C h a i r s

- Medium or High back models with 3-way adjustable pump lumbar
- Memory foam seat and back
- Other seat sizes are available as well as the coccyx cut-out option to provide a made-to order chair
- The 6-way adjustable SPYNAMICS mechanism provides forward tilting seat with independent back rake control, seat depth, and adjustable weight control and ratchet backrest height adjustment
- 4-way adjustable arms: one for height, one for forward and back, one for locking swivel and width; other multifunctional and foldaway armrests are also available
- A choice of 2 optional height and tilt adjustable memory foamed head/neck rests
